ICS3M3
Computer Programming

TGJ3M1
Communications Technology

A minimum total of:
4 MS^c.com Credits

Grade 12

Advanced Placement Course # 1

Advanced Placement Course # 2

All MS^c.com students are given the opportunity to select one (1) or two (2) Advanced Placement (AP) programs in subject areas of their interest and academic strength. AP level programs are recognized by a majority of Canadian and American universities as the equivalent of a 1st year university course. The AP level programs require a full year of preparation for success. Therefore, at Vanier, MS^c.com students selecting AP programs must begin their AP studies in the 1st semester of their grade 12 year.

Requirements for Students to remain in the MS^c.com program:

- A 75% overall average must be maintained in MS^c.com grade-level core subjects in both Grade 10 and 11
- A 65% overall average must be achieved in each of the mandatory MS^c.com courses in both Grade 10 and 11.

Students who opt out of the mandatory core program subjects for MS^c.com must withdraw from the MS^c.com program and join classes in the University Preparation Stream when permitted.
